

5 PHASE ELDER EXPLOITATION, NEGLIGENCE & ABUSE PIPELINE

Phase 1: Predatory Homecare Environment

Homecare provider gains control over the disabled or physically and cognitively compromised senior through the usurpation of estate & person controlling documents; Power of Attorney (PoA) & Advanced Directives, can add provisions to become default Guardian & Conservator (G-C). Predators exploit the seniors dependencies, uses undue influence, defamation, isolates senior & transfers the elder's assets to themselves & those whom assist them.

Phase 2: Predatory Legal Environment

Estate Planning/Elder Law Attorney(s) create compromised "estate and person ruling documents" coordinates with POA/Trustees. Working in-concert with the homecare provider/PoA the attorney recruits from their established network of third party court evaluators (Physicians, Guardian Ad Litems, LSW Court Visitors, geriatric psychologist evaluators, elected judiciary official and back-up G-C) to aid in document crimes, concealment/manipulation of diagnoses or estate compromising ailments/dependencies as means to facilitate illicit estate transfers via undue influence of seniors & probate courts.

Phase 3: Predatory Medical Environment

Attorneys recommend new "In-network" Primary Care Physicians & Evaluating Psychologists to Homecare Provider/PoA or Guardian-Conservator can choose their own. These medical professionals can sway diagnosis and conceal diagnosis in declarations to the Probate Court, they may even limit information to other specialist physicians particularly if it includes substance or prescription use disorders. While they are mandatory abuse reporters in most states they do not report signs of elder abuse or negligence. In actuality these can be considered BOM, Medicaid/Medicare, SSA and CMS duty to care related violations.

Phase 4: Predatory Facility Care Environment

Homecare Provider, G/C, Attorneys recommend their "In-network" for-profit elder care conglomerate whom use their own Physicians & Phycologists. Seniors are chemically restrained, facility ban visitors, staff can be physically & psychologically abusive. In some cases genetic trails performed without authorization, State has taken over for entire compromised franchises. Eldercare conglomerates are greedy, provide funds to compromised politicians for protection and this endanger residences, particularly in Covid era.

All Phases: Predatory Financial Services Environment

Financial services providers, brokers, CPAs & bankers may have been exploitive even before senior became dependent, they can be active with in dubious schemes while in-concert with homecare provider, PoA/Trustees, Attorneys & Conservators. After senior's untimely demise they can assist with an Executor's illicit transfer and concealment of on-going crimes during final probate.
